# INTRODUCTION

The background of the slide is a solid blue color. Overlaid on this background are several wavy, horizontal lines composed of small, dark blue dots. These lines create a sense of motion and depth, with some lines appearing more prominent than others. The lines start from the left edge and extend towards the right, with some curving upwards and others downwards, creating a dynamic, flowing effect.

# Did you know that?

World Bank has **two ambitious goals.**

**End extreme poverty.**

**Boost shared prosperity.**

# FOCUS AREAS

**Economy**

**Electricity**

**Education**

**Population  
and Health**

# Objectives

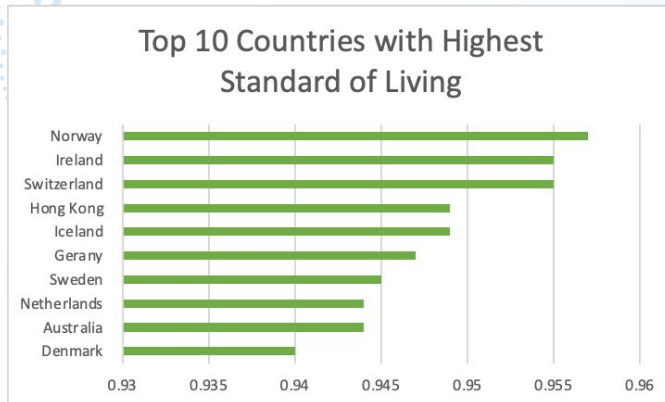

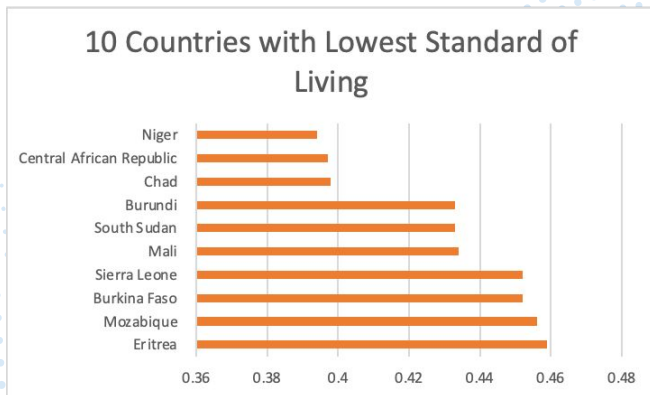

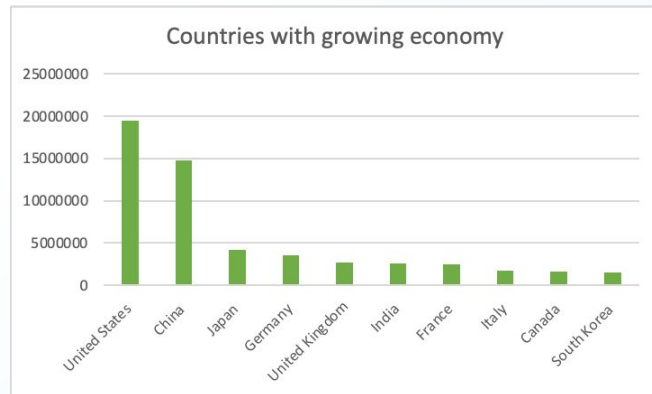

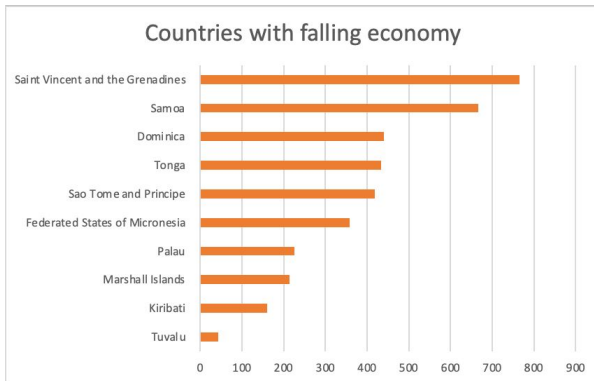

- Discuss insights and recommendations on each focus area
- Explain the importance of the chosen indicators
- Compare and correlate chosen indicators

# FINDINGS

The background of the slide is a solid blue color. Overlaid on this background are several wavy, horizontal lines composed of small, dark blue dots. These lines create a sense of motion and depth, with some lines appearing closer and more densely packed than others, creating a 3D effect. The lines flow from the left side of the slide towards the right, with some curving upwards and others downwards.

# Economy & Growth

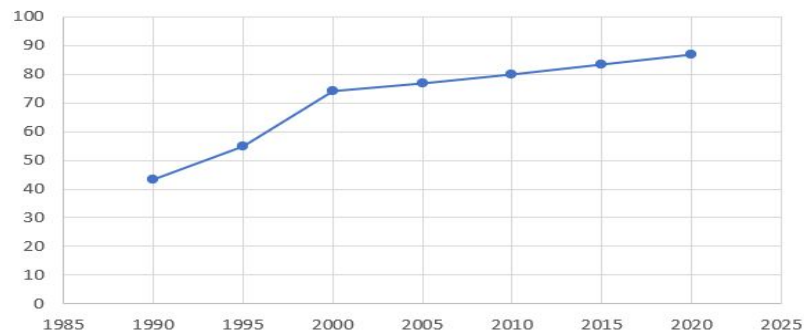

Countries with low GDPs are located in Oceania, Caribbean, or Africa.

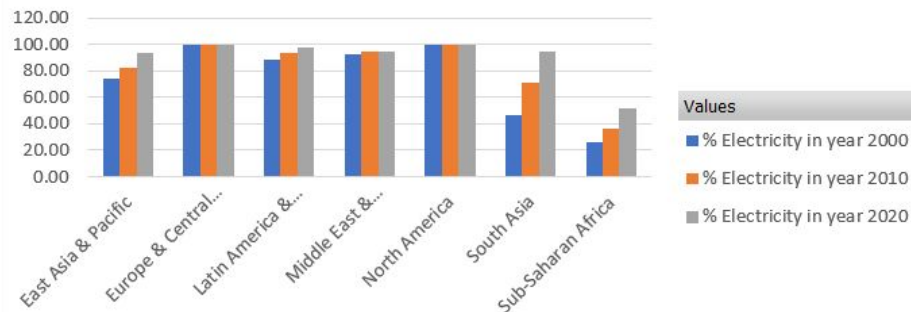

Higher HDI means that a country has a higher standard of living - decent health care and opportunities.

# Access to Electricity

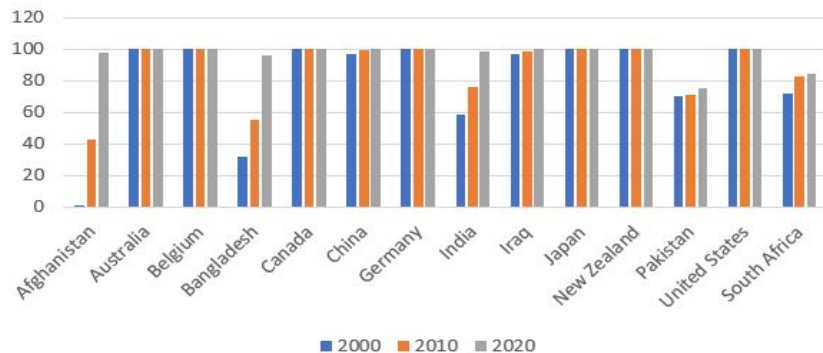

Average % of Electricity over years in world

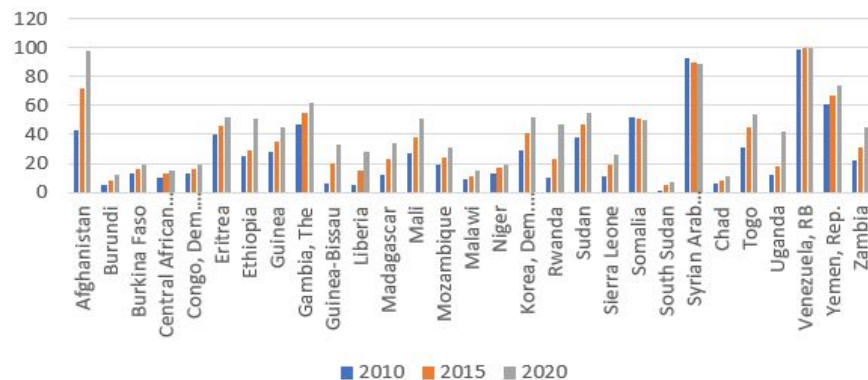

% of Electricity by Region in year 2000, 2010 and 2020

Percentage of Electricity of countries in year 2000 2010 and 2020

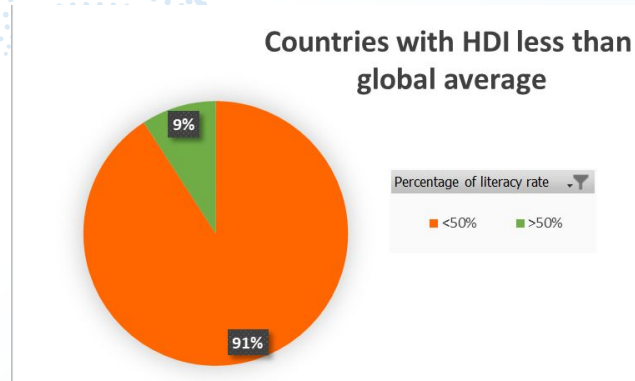

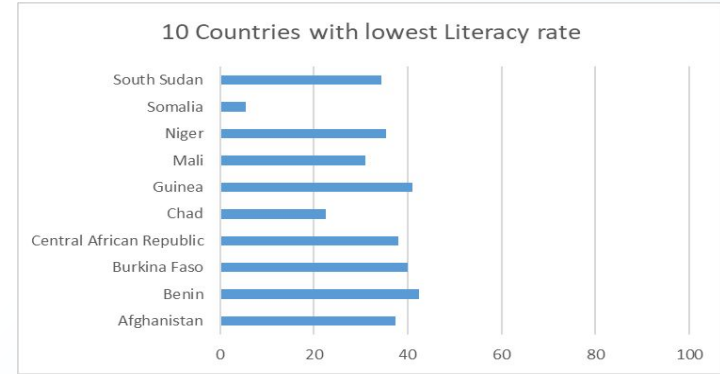

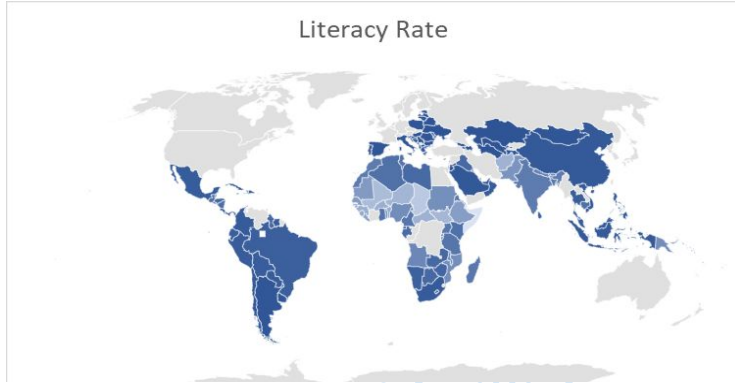

Percentage of Electricity of Low Income Countries in year 2010 2015 and 2020

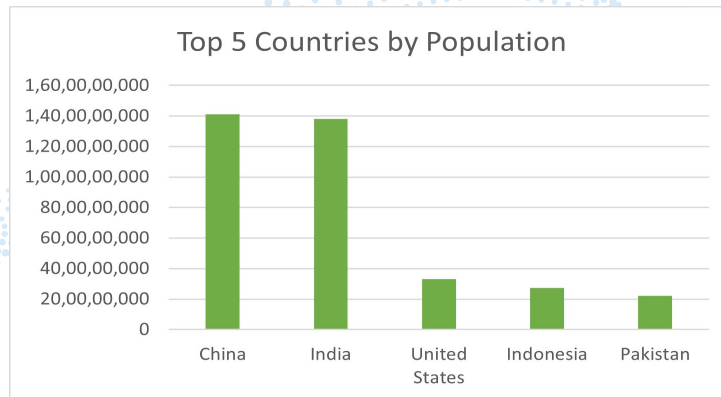

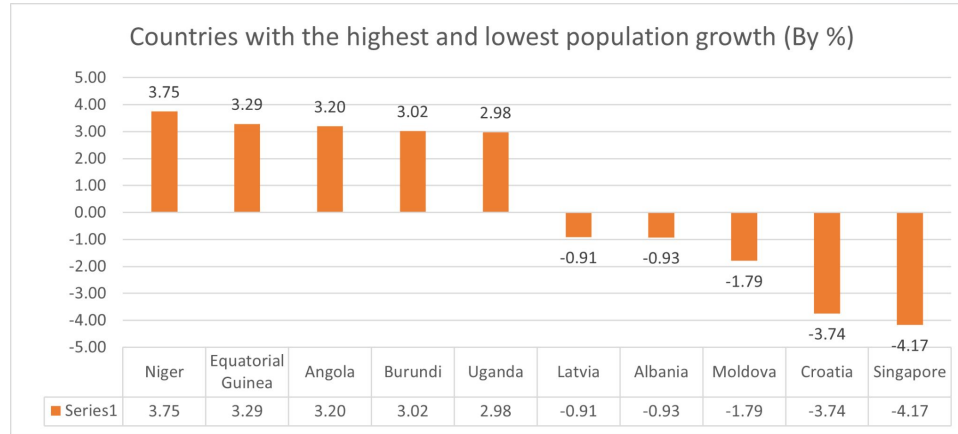

# Education

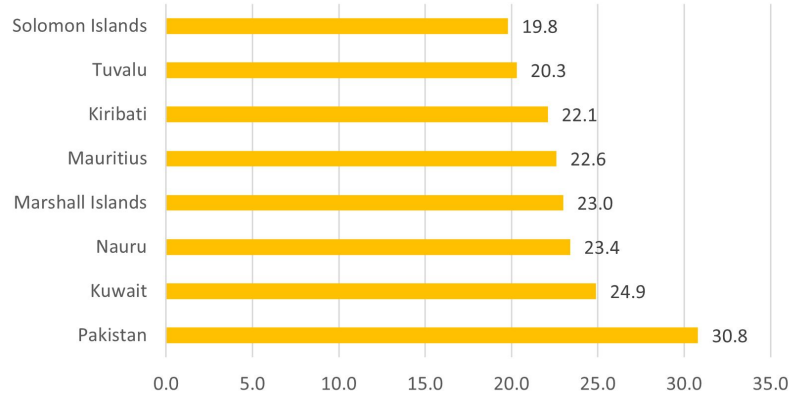

# Population & Health

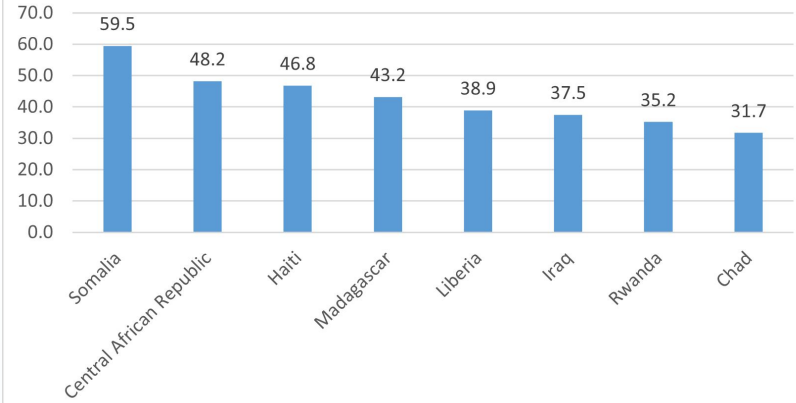

China, India, the US, Indonesia, and Pakistan comprise 48.2% of the world population.

# Population & Health

Countries with more % of Diabetes

Countries with more undernourishment (By %)

# CONCLUSION

The background features a solid blue color. Overlaid on this are several wavy, horizontal lines composed of small, dark blue dots. These lines create a sense of motion and depth, with some lines appearing more prominent than others, creating a layered effect.

# Conclusion

- The World Bank Group and other international organizations have roles to play in what initiatives can be started to help countries with low standards of living.
- The World Bank Group supports countries' efforts to achieve universal health coverage through stronger primary health systems and provide quality, affordable health services to everyone.
- Each one can go the extra mile to take part in nation building.

# Thank you for listening!
